The steps you need to take are as follows:

STEP 1: Make sure your computer is connected to the internet and connected up correctly with all of your apps, whether it be UC browser for Chrome or Firefox running on PC or MacOS. While you don't need UC Browser to upload, we recommend that you use it to stream to YouTube and find your video link.

STEP 2: Use UC Browser to search for a video on YouTube. Click on the "Like" option in the bottom right corner of the video. On the next page, click on "View in Full Screen." Then click on the gear icon beneath "Like," choose to add it as a favorite and copy the URL.

STEP 3: Open your Blogger website and click on 'New Post'. When you're in 'Text' mode, paste your link into the post and type in some keywords to optimize search engines. Click on the 'Publish' button.

STEP 4: Log into your YouTube account and click on 'Upload New Video.' (You can use the link provided in the post if you cannot find it.) Click on 'Start Uploading' and then click 'Finish.' Your video is now uploaded! It will take a few hours for YouTube to process it, but it usually takes between 5-5.5 minutes. Once uploaded, you can browse through all of your uploaded videos. You can also use the search function to find videos that you want to watch.

STEP 5: Find your video in the 'Uploaded' section of your YouTube page, click on it and enjoy!
